

§ 19.271

part or all of such securities may be released. At any time prior to the release of such securities, the appropriate TTB officer may extend the date of release for such additional length of time as he deems necessary.

(Ch. 290, Pub. L. 80-280, 61 Stat. 650 (31 U.S.C. 9301, 9303))

Subpart I—Construction, Equipment and Security

§ 19.271 Construction of buildings

Buildings in which spirits, denatured spirits, articles, or wines are produced, stored, or processed shall be constructed with substantial material (e.g., masonry, concrete, wood, metal, etc.), and arranged, equipped, and protected to provide adequate security to the revenue.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1353, as amended) (26 U.S.C. 5178))

§ 19.272 Equipment.

The proprietor shall provide equipment suitable for the operations conducted on the distilled spirits plant. The equipment shall also meet the needs for revenue protection.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1353, as amended) (26 U.S.C. 5178))

§ 19.273 Tanks.

(a) *General.* (1) Tanks used as receptacles for spirits, denatured spirits, or wines shall be located, constructed, and equipped to be suitable for the intended purpose and to allow ready examination.

(2) An accurate means of measuring the contents of each tank shall be provided by the proprietor.

(3) When a means of measuring is not a permanent fixture of the tank, the tank shall be equipped with a fixed device to allow the approximate contents to be determined readily.

(4) Tanks used for determining the tax imposed by 26 U.S.C. 5001 shall be mounted on scales and an additional suitable device shall be provided so that the volume of the contents can be quickly and accurately determined.

(5) The proprietor shall install walkways, landings and stairways which will permit safe access to all parts of a tank.

27 CFR Ch. I (4-1-07 Edition)

(6) Tanks in which gauges required by this part are to be made shall not be used until they are accurately calibrated and a statement of certification of accurate calibration is included in the notice of registration.

(7) If tanks or their fixed gauging devices are moved in location or position subsequent to original calibration, the tanks shall not be used until recalibrated.

(8) All tanks shall be equipped or situated so that they may be locked or otherwise secured.

(9) Any tank vents, flame arresters, foam devices, or other safety devices shall be constructed to prevent extraction of spirits or wines.

(b) *Scale tanks.* (1) Beams or dials of scale tanks used for determining the tax imposed by 26 U.S.C. 5001 shall have minimum graduations not greater than the following:

Quantity to be weighed	Minimum graduation
Not exceeding 2,000 pounds	½ pound;
Between 2,000 and 6,000 pounds	1 pound;
Between 6,000 and 20,000 pounds	2 pounds;
Between 20,000 and 50,000 pounds	5 pounds;
Over 50,000 pounds	10 pounds.

(2) For scales having a capacity greater than 2,000 pounds, the minimum quantity which may be entered onto the weighing tank scale for gauging for tax determination shall be the greater of

(i) 1,000 times the minimum graduation of the scale or

(ii) 5 percent of the total capacity of the weighing tank scale.

(3) The weighing of lesser quantities for determination of tax may be authorized by the appropriate TTB officer where the beam of the scale is calibrated in ½ pound or 1 pound graduations and it is found by actual test that the scales break accurately at each graduation.

(4) Lots of spirits weighing 1,000 pounds or less shall be weighed on scales having ½ pound graduations.

(c) *Testing of scale tanks.* (1) Proprietors shall ensure the accuracy of scales used for weighing lots of spirits or denatured spirits through tests conducted at intervals of not more than 6 months, and whenever scales are adjusted or repaired.

(2) Proprietors shall also test, at least once a month, the gallonage represented to be in a scale tank against the gallonage indicated by volumetric determination of the contents of the tank. However, if the scale is not used during a month the volumetric determination need only be verified at the next time actually used.

(3) The volumetric determination shall be made in accordance with 27 CFR part 30, and if the variation exceeds 0.5 percent of the quantities shown to be in the tank, the proprietor shall take appropriate steps to have the accuracy of the scale verified.

(4) When an appropriate TTB officer determines that a tank scale may be inaccurate, the proprietor shall have the accuracy of the scale tested.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1320, as amended, 1358, as amended, 1391, as amended (26 U.S.C. 5006, 5204, 5505))

§ 19.274 Pipelines.

(a) *General.* (1) Pipelines for the conveyance of spirits, denatured spirits, articles, or wines shall be of permanent character and constructed, connected, arranged, and secured so as to afford adequate protection to the revenue and to permit ready examination. However, the appropriate TTB officer may approve pipelines which may not be readily examined if no jeopardy to the revenue is created.

(2) Where a pipeline connection must be flexible, a hose may be used if connected and secured so as to protect the revenue.

(b) *Identification.* The appropriate TTB officer may require permanent pipelines for conveyance of spirits or denatured spirits to be color coded to provide identification.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1353, as amended (26 U.S.C. 5178))

§ 19.275 Continuous distilling system.

The distilling system shall be continuous, and designed, constructed, and connected in such a manner as to prevent the unauthorized removal of distilled spirits.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1353, as amended (26 U.S.C. 5178))

§ 19.276 Package scales.

Proprietors shall ensure the accuracy of scales used for weighing packages of spirits through tests conducted at intervals of not more than 6 months or whenever scales are adjusted or repaired. However, if the scales are not used during such period, the scales need only be tested prior to use. Scales used to weigh packages designed to hold 10 wine gallons or less shall indicate weight in ounces or in hundredths of a pound.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1358, as amended (26 U.S.C. 5204))

§ 19.277 Measuring devices and proofing instruments.

(a) *General.* Proprietors shall provide for their own use accurate hydrometers, thermometers, and other necessary equipment to determine proof or volume.

(b) *Instruments.* Hydrometers and thermometers used by proprietors to gauge spirits shall show subdivisions or graduations of proof and temperature which are at least as delimited as those prescribed in 27 CFR part 30. Proprietors shall make frequent tests of their hydrometers and thermometers, and, if they appear to be in error in excess of one subdivision, the instruments shall not be used until they are further tested and certified as accurate by the manufacturer or another qualified person.

(c) *Meters.* The appropriate TTB officer may approve applications to measure spirits by meter for purposes other than tax determination. Applications shall include sufficient technical data, such as the make, model and accuracy tolerance, to enable the appropriate TTB officer to evaluate the suitability of the meter for its intended use. Corrections for temperature of the spirits being measured shall be made in conjunction with the volumetric measurement of spirits by meter. If a meter does not have a temperature compensating feature, temperature correction shall be ascertained and made from a representative sample taken from the spirits being measured.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1358, as amended (26 U.S.C. 5204))
